just like the buggy whip manufacturs, when the automobile came out, and and like the cable companys screamed when sattelite tv came out, the local tv and radio affilitations have been complaining about sattelite tv and their local coverage of local news and traffic reports..HEY this is the 21st century. i know that you get bought off with money from tv station lobby people. but HEY you can't stop technology. you better think twice about voting for a bill to stop this.have voted 4 u always in the past.
